

term fryer is no longer used—in from eight to ten weeks. These fast developing broilers also have a high feed efficiency, being able to

Seed surveys conducted in Manitoba, Saskatchewan and Alberta have shown that a very high percentage of the samples cleaned at country elevators graded 'rejected' and that this percentage was considerably higher than that shown under 'farm cleaned seed'. In Manitoba, for instance, during 1964 and 1965 less than 15 per cent of elevator cleaned samples were eligible for No. 2 seed grade or better and no less than 74 per cent of the samples not cleaned were classed as 'rejected'.

These findings are not to be wondered at. In the first place, elevator cleaners were never designed for the purpose of cleaning farmers'

ed but rather for the express purpose of cleaning grain before it was shipped from country elevators to terminals. In the second place, there is far too much danger of adulterations for the reason that most

metallations are difficult to clean thoroughly and mixtures between seed lots occur quite easily. In a good many cases too, grain that is relatively free of weed seeds when brought into the elevator becomes

The time may come when elevator cleaning will be a thing of the past, certainly a good deal of headway

providing more and better facilities for cleaning seed grain and the situation is improving year by year.

Spring is that period when the
 neocent bystander, comes out of
 ibernation.

World Happenings In Pictures

YOUNGEST TRICK-SHOT GOLFER—Linda Lewis, five-year-old of San Francisco, shows perfect form, making a shot that can be sold for her club. It has a lumber rubber shaft, but Linda managed to drive the ball. Linda is billed as the nation's youngest trick-shot golfer and will accompany her more experienced golfing father on a tour of the U.S. this season.

GERMUNIT—That's what little Linda Lee Burroughs says after spotting this California license plate in San Francisco. And her remark is nothing to sneeze at. It's especially appropriate because auto sporting the unusual plate is a German Volkswagen.

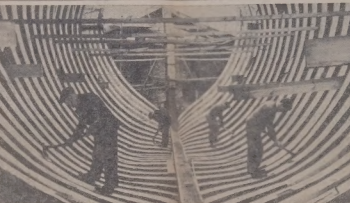

SHOOTIN' FOR KEES—No child's play is this game of war, played as an indoor pastime in the United States. The game is played into many before their formation of certain parts. Their presence is said to reduce shrinkage, and strengthen the model. Costs are said to have been reduced some 50 percent by use of the mine.

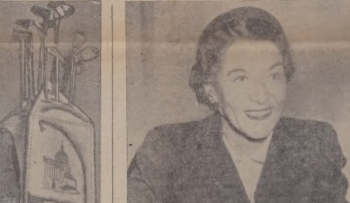

BARBARA McDERMODT, then wife of New York's Yankee baseball star, Mickey McDermodt, during one of the left-handed in the early training site at St. Petersburg, Fla., recently. Mickey was obtained by Yankee recently in a trade with Washington.

SIR WINSTON GETS LAST-MINUTE INSTRUCTIONS—Sir Winston Churchill had that resigned husband look as he got some last-minute instructions from Lady Churchill as she leaves for a holiday trip to Cañon. The British former Prime Minister was on hand at the London residence to see her off. Lady Churchill's vacation trip follows a hospital checkup of her health.

"PIGMEANS" SHEEP MAKES PROGRESS—Workmen are shown in smooth ribs of a 20th Century Mayflower as they work on the ship at Upton shipyard in Britain, Devon, England. Twenty-one men, started as early the pilgrims of 1620, are scheduled to sail the near replica of the Mayflower to the United States later this year. The 65-footing craft is being constructed in much the same fashion as was the original Mayflower.

ACQUITTED IN DEATH OF GUIDE—Mrs. Virginia Riche, 42, daughter of a former Syracuse mayor, was freed in the slaying of George (Tommy) Knapp, 41, who died of wounds November 30 at her lodge on an island in Newbury Lake, 20 miles northwest of Brooklyn. The 41st anniversary was the occasion of manslaughter. She originally been charged with murder but the charge was reduced at her preliminary hearing. After the jury returned its verdict, Justice J. W. Trevelyan commented: "I am inclined to think that you give Mrs. Riche the benefit of the doubt. However, I have no criticism of your verdict."

THE JUNE GANPARELLA, only fully signed plate play of the kind in the world. The ship cost more than \$100,000, for an over-all length of 164 feet 6 inches, and 35 feet in the beam. The three steel heads longer than 100 feet above the deck, designed on the lines of the 16th century. When launched, the ship will be the pride of America's Maritime Museum of Genoa, the group of ships built in the 16th century for one week each year.

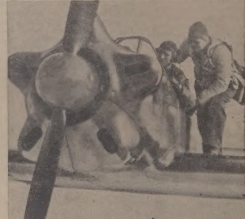

YANKEE AWAIT TRANSFER—Eighteen Yankee Building Mall lanes rest on barges in Brooklyn, N.Y., awaiting transfer in a freighter due to take them to South America. Shortly after the tanks were loaded the U.S. State Department "temporarily suspended" all export permits for munitions shipments to the Middle East.

RESISTING RITE—Brooklyn Dodge catcher Ray Comstock exhibits his left hand to Supreme Court at end of testimony in trial recently in which he is seeking \$5,000 suit brought by Dr. S. Shuman, who performed operation to restore its usefulness. Comstock's family physician testified he told the witness the operation would cost between \$1,000 and \$10,000. Comstock denied this.

"NOW, YOU LISTEN TO ME"—There's nothing that irritates a stuffed animal more than another stuffed animal. Ina King pringles in the London, England, son, isn't telling of baby. He's voting his indignation at an impostor—a toy pringles—which was slipped into the cage. Other members of the men's club, background, are ignoring the whole thing.

"DEEP" WINGS FOR THE EAGLE—Austria's fledgling army is playing wing, pictured here, "Eagle" fathers for the eagle of the Hapsburgs. Officers shown above, inspect a Russian-built jet 15 miles at Langenwiesbach, near Vienna.

TOGETHER AGAIN—Yes, Yvonne Aulic Elberg and Anthony Rocco together again and this time at London Airport, en route to Brooklyn where Anthony will visit. Aulic's parents believe she leaves the Hollywood. They wish they could make sure she does not. Aulic was last seen enough to say: "If you hear anything from me, please let me know. It would be so good to hear from you after 1 month, would it?"

Local and District

Remember the Catholic Ladies' Easter Tea, to be held in the Legion Hall, Delia, on Saturday next, April 7th, beginning at 8 p.m.

Chinook wheat is now recommended for this district, and is first on the list of recommended varieties for all of zone 2. Chinook is a dwarf resistant, produces high weight per bushel, an attractive kernel even under drought conditions, and is resistant to bleaching. Local tests show it is being maturing about five days earlier than Thatcher.

Mrs. W. W. Hubbard is a patient in the Drumheller hospital.

The weather continues mild, with liberal snow the latter part of last week. The temperature is now 40 degrees above.

The Easter traffic on the C.N.R. apparently was heavy. The eastbound passenger train Monday night was twice the size of the usual. It took two engines to negotiate the up-grade haul from Drumheller as far as Delia. The extra engine subsequently turned around via the "Y," and headed back westward.

Mr. and Mrs. Andrew Dmytryk, accompanied by Mr. and Mrs. Alex. Dmytryk and family, of Calgary, were visiting their parents, Mr. and Mrs. Wm. Dmytryk, during the Easter holidays.

Mr. Mayers, of Calgary, spent the Easter holidays in Delia.

Know Your Weeds

A new publication, "Know Your Weeds" has been released recently by the Alberta Field Crops Branch. Five bad pernicious which can be eradicated on small patches with sodium chlorate are illustrated on poster style publication.

Henry Cross, Field Biologist, Assiniboia, Kananaskis, and Spruce and Yod Flax are photographed as to show the details of their false. Chemical control methods are outlined for each of the five.

Ask your District Agriculturalist a copy of Publication No. 33 or write to the Extension Service, Agriculture Department of Agriculture, Legion Building, Edmonton for copy.

Soil Moisture Reserves

OTATTA March 20, 1966—Soil moisture reserves may at times be low to require a mid-season crop, according to a report from A. Hensling, Soil Specialist at the Bowden Experimental Farm, Canada Department of Agriculture. The average annual rainfall of 17.6 inches at Bowden, Alberta, is generally sufficient when favourably distributed or when soil moisture reserves are high. However, insufficient rainfall during the period mid-June to mid-July will place a heavy drain on soil moisture reserves. Low reserves at this time of year, when crop requirements are greatest, will greatly reduce yields.

Ample soil moisture reserves and good spring growing conditions produced a strong stand of Thatcher wheat in late April in 1965, but in July of that year, a heavy crop and lack of normal rainfall resulted in a depletion of moisture reserves. This resulted in droughty soil conditions. In 1964 the moisture reserves were good and proved adequate throughout the summer because of higher growth and more soil water reserve. Low moisture reserves and dry conditions in the spring of 1965 produced a light crop, while ample and well distributed rain in June in the summer reduced the need for reserve moisture.

These studies indicate that the upper 12 to 15 inches of soil contribute the major portion of the moisture used by the crop. Of the 2.5 inches of reserve soil moisture used by the 1965 crop, 1.9 inches of water from the upper 12 inches of soil, with progressive rain amounts from depths to 35 inches.

During the 1965 growing season, rain affected the moisture content of the upper 12 inches of soil to a degree, and to a lesser extent the 12 to 15 inch layer of soil. There was no increase in moisture recorded below this depth.

Fertilizers and Legume Crops

If your farm is on grey wooded soil and has been seeded with legume crops, this short note is meant for you.

According to Robert L. Plank, Director of Crop Improvement, Japanese clover and lucerne legumes are regarded as valuable yields of cereal grown on the grey wooded soil. The use of legume seed or fertilizer alone will not do the job. The increase in yields follows when they are used in combination with a planned fertilizer.

To help legume yields on grey wooded soil, a note is being furnished and being repaid.
